

NDA-7042-PIPW Pendant interface plate, weather, dual

The NDA-7042-PIPW is a weather shield accessory that protects a pipe or pendant mounted camera against harsh weather conditions such as rain, snow and direct sunlight, reducing the risk of damage and minimizing the camera's maintenance.

The weather shield has a black underside design that stops any glare and reflections, enabling superior imaging, particularly in challenging light conditions where infrared illumination is used. The white coating on the outer surface shields the underlying plastic from harmful UV rays reducing yellowing and degradation over time, extending its lifespan.

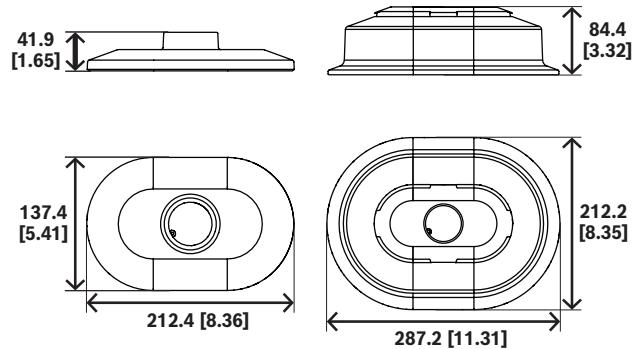

Regulatory information

Environmental

| | |
|-----------|---------------|
| Salt mist | IEC60068-2-52 |
| Vibration | IEC60068-2-6 |
| Shock | IEC60068-2-27 |

- ▶ Modular design for fast and easy installation
- ▶ Allows installation of your camera to a wall mount (NDA-U-WMT) or pendant pipe mount (NDA-U-PMT)
- ▶ Weather resistant finish to maintain cosmetic appearance
